Download Upgrade

New upgrade is available!

Upgrade your Guardian protection for Free.

New upgrades are important for computer security. We constantly create new security features and enhance our security logics to curb new threats to your data and PC.

How to Upgrade?

Note: Upgrade can be done only if your product license is valid.

To upgrade, follow these steps.

- Download the appropriate Guardian Upgrade 22.00 file from the 'Select the right Guardian product upgrade' section on your PC.
- Double-click the downloaded file.
- The 'Guardian Setup Downloader' window will appear. Click 'Download'. The upgrade file may take a few minutes to download. You can pause and resume the download as per your convenience.
- Follow the on-screen instructions to proceed.

In case you need help, please visit our Support page. We will be glad to assist you.

Know your Guardian product name and version

Before you upgrade your product version, know what version of product you are using.

1. Open **Guardian antivirus**. The product name is displayed on top left corner of the dashboard.
2. On the top right, click the **Help** menu.
3. Click **About**. The product version is displayed.

Select the right Guardian product upgrade
